

Contributing to Nurse Researcher

These author guidelines will help you submit suitable articles for publication in the 'evidence & practice' section of Nurse Researcher. Separate guidelines are available for general clinical articles, research articles and CPD articles in all other RCNi journals. For further information on publishing with RCNi go to rcni.com/publish-article-with-rcni

Please note that your article must be submitted to one journal ONLY, whether published by RCNi or any other company. Submission to more than one journal will not increase your chances of publication. Editors will not consider articles that have been submitted or published elsewhere.

Purpose

Nurse Researcher is an international, peer-reviewed journal that publishes high-quality articles on research methodology, the methods and processes used to collect and analyse data, and topical issues related to research design.

The journal does not publish articles analysing results of research. Please contact the editor Elizabeth Halcomb ehalcomb@uow.edu.au to discuss potential submissions.

Peer review

Suitable articles are subject to double-blind peer review involving two external expert reviewers.

Length

Articles must be no more than 4,800 words including the title, abstract, introduction, distinct sections, conclusion, any boxes, tables and figures, and references. Do not include footnotes. Shorter, commentary-style reports on specific issues relevant to the journal's aims are welcome. These should be no more than 1,600 words including references.

Abstract

An abstract of no more than 250 words should be provided with the headings: background, aim, discussion, conclusion, and implications for practice.

References

It is your responsibility to ensure that your article is accurately and appropriately referenced using the current literature and primary sources. Unless you are citing seminal references, you must use references published within the last ten years. References to Wikipedia articles are not accepted.

The reference list must be placed at the end of the article under the subheading 'References'. Any formatting from reference management software, such as EndNote or Reference Manager, must be removed before submission.

Please adhere to the Harvard system of referencing, exemplified below.

Reference citations in the article

- » **One author:** Community-acquired pneumonia has high morbidity and mortality rates (Müller 2015).
- » **Two authors:** Blandin and Pepin (2017) argue that grief occurs in anticipation of multiple losses over time.
- » **More than two authors:** Stokes et al (2017) believe that trauma-informed care is an area where nurses' knowledge is limited.
- » **If two or more references are cited simultaneously, the order should be chronological from oldest to most recent:** Differing management approaches can be a barrier to pain management (Neville and Roan 2014, Morley et al 2015).
- » **If there are two or more references to the same author, the order must also be chronological:** For adults with substance use disorder, National Institute for Health and Care Excellence (2007, 2011) guidelines support the use of brief interventions.

References in the reference list

References must be listed in alphabetical order. If there are two or more references to the same author, they must be cited in chronological order from oldest to most recent.

Journals

- » **One author:** Müller F (2015) Oral hygiene reduces the mortality from aspiration pneumonia in frail elders. *Journal of Dental Research*. 94, 3 Suppl, 14S-16S. doi: 10.1177/0022034514552494
- » **Two authors:** Blandin K, Pepin R (2017) Dementia grief: a theoretical model of a unique grief experience. *Dementia*. 16, 1, 67-78. doi: 10.1177/1471301215581081
- » **Three authors:** Hunt PA, Greaves I, Owens WA (2006) Emergency thoracotomy in thoracic trauma: a review. *Injury*. 37, 1, 1-19. doi: 10.1016/j.injury.2005.02.014
- » **More than three authors:** Stokes Y, Jacob JD, Gifford W et al (2017) Exploring nurses' knowledge and experiences related to trauma-informed care. *Global Qualitative Nursing Research*. 4. doi: 10.1177/2333393617734510

Plagiarism

All articles are checked using antiplagiarism software. Those containing substantial passages of text that are similar to those in previously published work are rejected by email.

Permissions and ethics

If you plan to use substantial sections of text or illustrations from a copyright-protected source, you must obtain written permission from the copyright holder before submission. If permission has not been obtained, we may not be able to use the material.

For further information on RCNi's ethical guidelines go to rcni.com/submit-an-article-ethics

Authorship

All named authors must have contributed to the article and must have reviewed and approved its content before submission.

Submitting your article

Articles must be submitted through the online submission system at www.edmgr.com/rcnp-nr

Copyright

If your article is accepted, you will be asked to complete an author form and sign a publisher's agreement. The publisher's agreement assigns copyright of your article to RCNi. Articles will not be published without a signed publisher's agreement from each author.

Article proofs

Before publication, you will be asked to proofread an edited version of your article and answer any editorial queries raised. You will then receive confidential proofs for final approval.

Publication

Articles are published online, which is the version of record and fully citable. Once your article has been published online, you will receive a watermarked PDF for your personal use only. We also encourage you to upload the final accepted version of your article on your institution's online repository, but only six months or more after online publication.

For further information about how your article can be promoted, go to rcni.com/author-policies

Open access

Nurse Researcher offers open access publishing. Full details are available at rcni.com/publish-article-with-rcni

Contacts

For technical questions about submitting your article, contact Helen Hyland (+442088723138, helen.hyland@rcni.com)
